Who we are

Horizons Plus employs a wealth of professional expertise in the field of educational and career guidance.

Joint Director, **Marlene Macleod**, has been an education specialist for many years, spanning several areas including Mainstream, Gifted & Talented and Special Needs education. Marlene also has considerable experience in providing consultation on business solutions and behavioural development programs to organisations throughout Australasia. From her experience, Marlene is acutely aware of the shortfall in effective solutions available to school and university students in terms of subject and career choice.

Joint Director, **Gil Christie**, has extensive experience as a Chartered Organisational Psychologist in the UK and Registered Psychologist in Australia. Primarily focusing on career management & 'people-environment fit', he has acquired a formidable reputation in Australia over the past 25 years helping people reach their potential. His 1996 book, 'Open the Door on Psychological Testing', is promoted by the Australian Council for Educational Research and widely regarded as the best "easily digestible, non-technical overview of applied psychological testing" for students and job applicants alike. Gil is a Member of the Australian Psychology Society and a Director of College of Psychological Practice.

With a First Class Honours degree in Psychology, Consultant **Will Blott** brings successful business consultancy skills focusing on work change issues. Since emigrating to Australia, he has successfully worked on recruitment assignments for global clients with Gil, placing 'round pegs in round holes'; i.e. focusing on person-environment fit. His interests in personal motivation and coaching, combined with his experience in selection and recruitment for entry level positions (school-leavers and undergraduates), ensure a current appreciation of the dilemmas and uncertainties facing students trying to make critical subject or career choices.
